- **Fold on inside blue lines**
- **Glue tabs to assemble**

Bobcat™ 260

How does the Welder/Generator help people?

It's harvest time in Nebraska and Fred the Farmer has a broken tractor - right in the middle of the field! Fred can bring his Bobcat Welder/Generator to the rescue! It is powered by an engine and can not only provides welding power to fix the tractor but also provides electric power for lights and other tools like grinders that he might need to make the repair. This allows Farmer Fred to keep working before the big thunderstorm rolls in.
