**NEW!**

**External grind control** allows for seamless transitions from welding to grinding.

**ClearLight™ 2.0 Lens Technology** provides advanced high-definition optics for the most realistic view that's clearer and brighter — before, during and after every weld.

**2.5 light state** provides better visibility between tasks.

**InfoTrack™ 2.0** tracks and displays arc time and arc count.

**AutoSense™** reduces issues related to setting helmet sensitivity by allowing the welder to push and hold the AutoSense button to automatically set the helmet sensitivity for their environment.

**Four arc sensors and four modes:** weld, cut, grind and X-Mode. X-Mode electromagnetically senses the weld to reduce sunlight interference and continuously detects the arc even if sensors are blocked.

**Digital controls** easily allow welder to make precise lens adjustments to shade, delay and sensitivity.

**Memory function** for easy switching between two preset customized memory settings.

**Half-shade settings** for precise lens adjustment.

**Gen. 3.5 headgear with comfort cushion** has an ergonomic design that provides extensive adjustability, settings, and enhanced support.

**Optional helmet lighting accessory kit** includes two lights (one for each side) and all required mounting hardware.

**TRUE BLUE**  
4YR. WARRANTY
